

3M[™] PELTOR[™] WS[™] ProTac XPI

One headset, Several applications

The **3MTM PELTORTM WSTM ProTac XPI** Headset is equipped with Bluetooth[®] Multipoint connectivity for simultaneous seamless connection to up to two external Bluetooth enabled devices. Level dependent function for ambient listening to help improve your situational awareness and ability to communicate with people standing close by without compromising your hearing protection. Bright yellow color for enhanced visibility and IP68 classified noise cancelling Boom microphone with optimized performance in high noise areas contribute to the robustness and reliability of the 6th generation of this Bluetooth[®] headset.

Wireless solution for critical communication

3M[™] PELTOR[™] WS[™] ProTac XPI Headset is a hearing protector equiped with leveldependent function and Bluetooth[®] Multipoint connectivity. FLX2 accessory jack for connection of an extra non-Bluetooth enabled device.

Easy To Use

- Improved Menu system for easy handling.
- Reduced power consumption increases your average time before charging and prolong working hours with less interruptions due to low batteries
- Verbalized Low Battery warning so you can plan your battery charging/changing in between critical operations.

Bluetooth® Technology

- Utilize Bluetooth connectivity for simple and reliable connectivity to your devices for critical communication.
- Multipoint, for simultaneous, seamless connection to up to two external devices using Bluetooth technology.

Situational awareness with level-dependent function

The level-dependent function helps you to hear important sounds • from the surroundings and to communicate with people standing close by in a noisy environment, without compromising your hearing protection.

PTL, Push-To-Listen

When your level dependent function is turned down or even turned off you can use the PTL, Push-To-Listen which activate your ambient listening at occasions when you need enhanced situational awareness. A simple push at any button reset the ambient listening to your preferred setting.
